Animal Factory, 2021

Minimalist animal sculptures form playground equipment

Animal Factory is a collection of steel animals designed in a simple and abstract way, each preserving the exact size and proportions of the real animals. The objects are characterized by a minimal shape, made of metal tubing and a minimal use of color: each one is painted in a single shade, encouraging passers-by to open their minds and let their imaginations run wild.

The work invite you to sit on or climb up the structures and play with it.

The structures of the different animals can represent a gigantic playground for children, an alternative tool for a work-out, a peculiar place to hang out, or even a bike rack.

Winner of a competition held by NDSM-werf in Amsterdam, a giraffe, a gorilla, a crocodile and a wolf, are installed on the waterfront of the ex industrial area north of the city center.

Due to the simplistic design and construction process, more animals can be imagined to join the herd.

Gorilla, 2021

Animal Factory, 2022

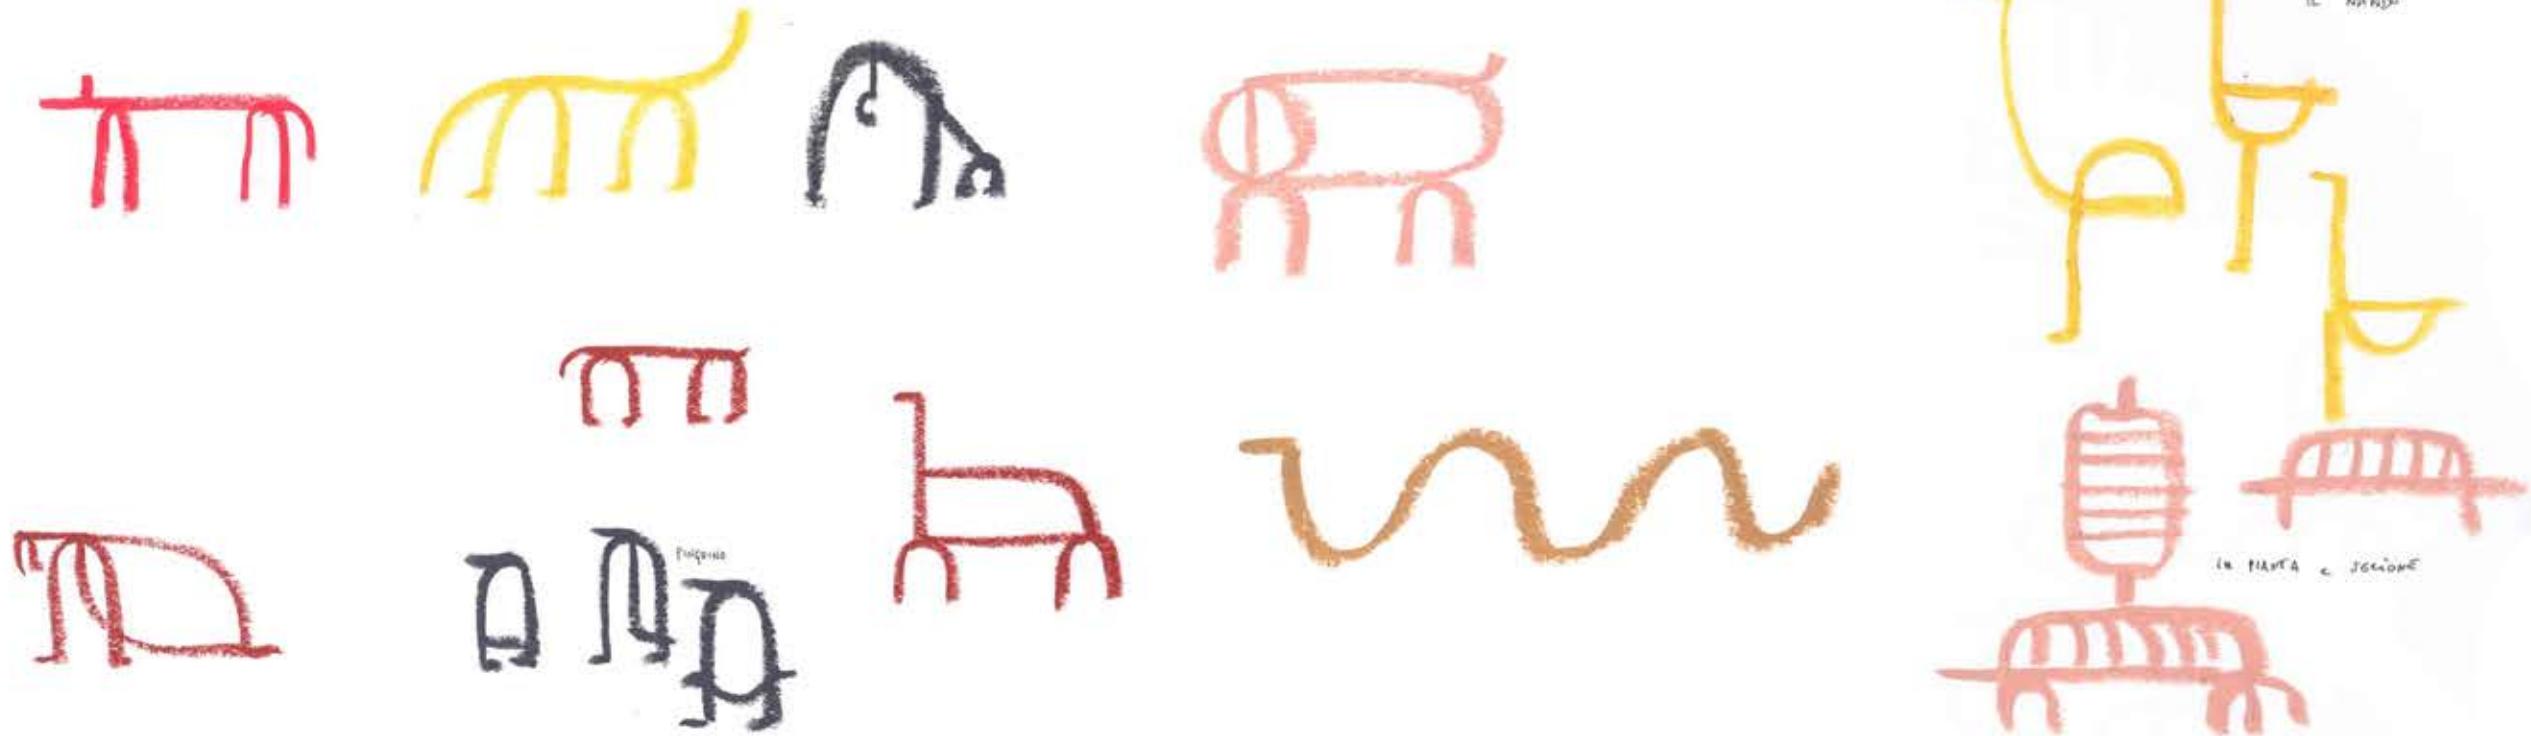

and many more to be realized!

Turtle, 2022

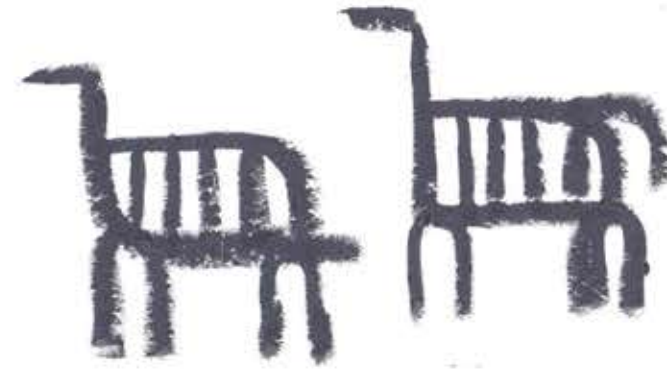

Category 1

Wolf
Ostrich
Gorilla
Turtle
Crocodile
Ant eater
Walrus

and many more!

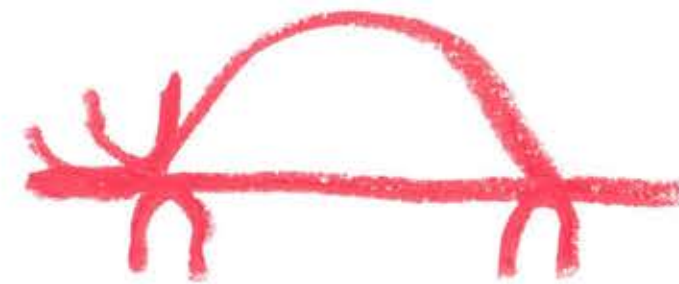

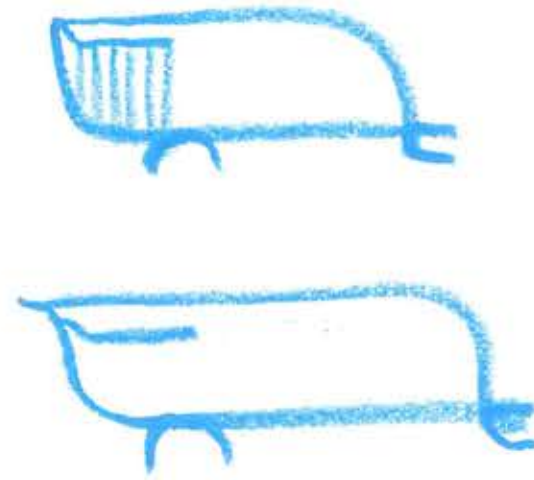

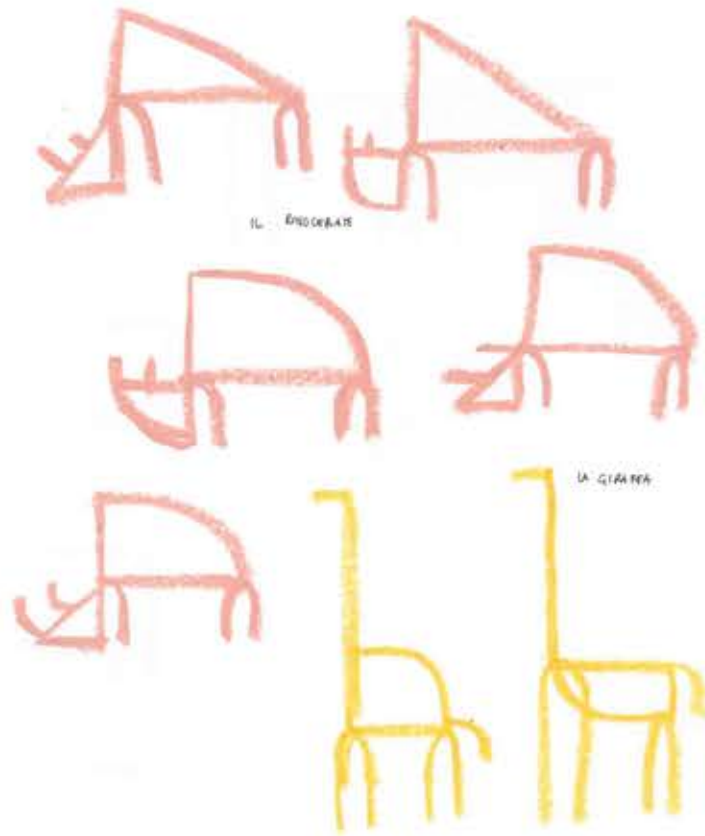

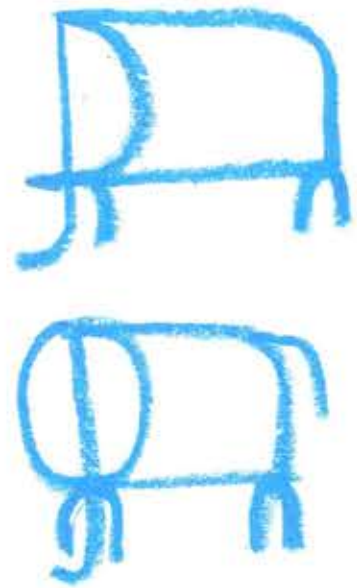

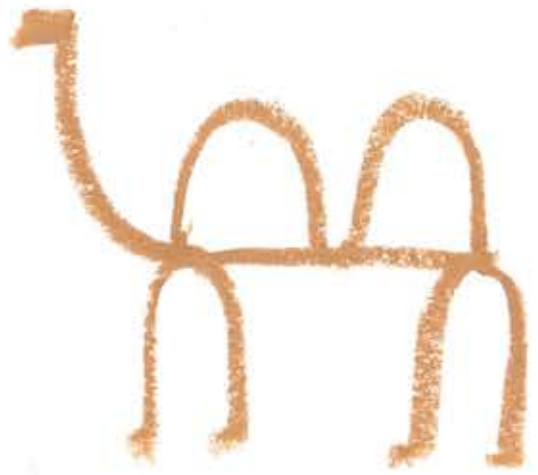

Category 2

Deer
Buffalo
Zebra
Bison
Bear
Gazelle

and many more!

Category 3

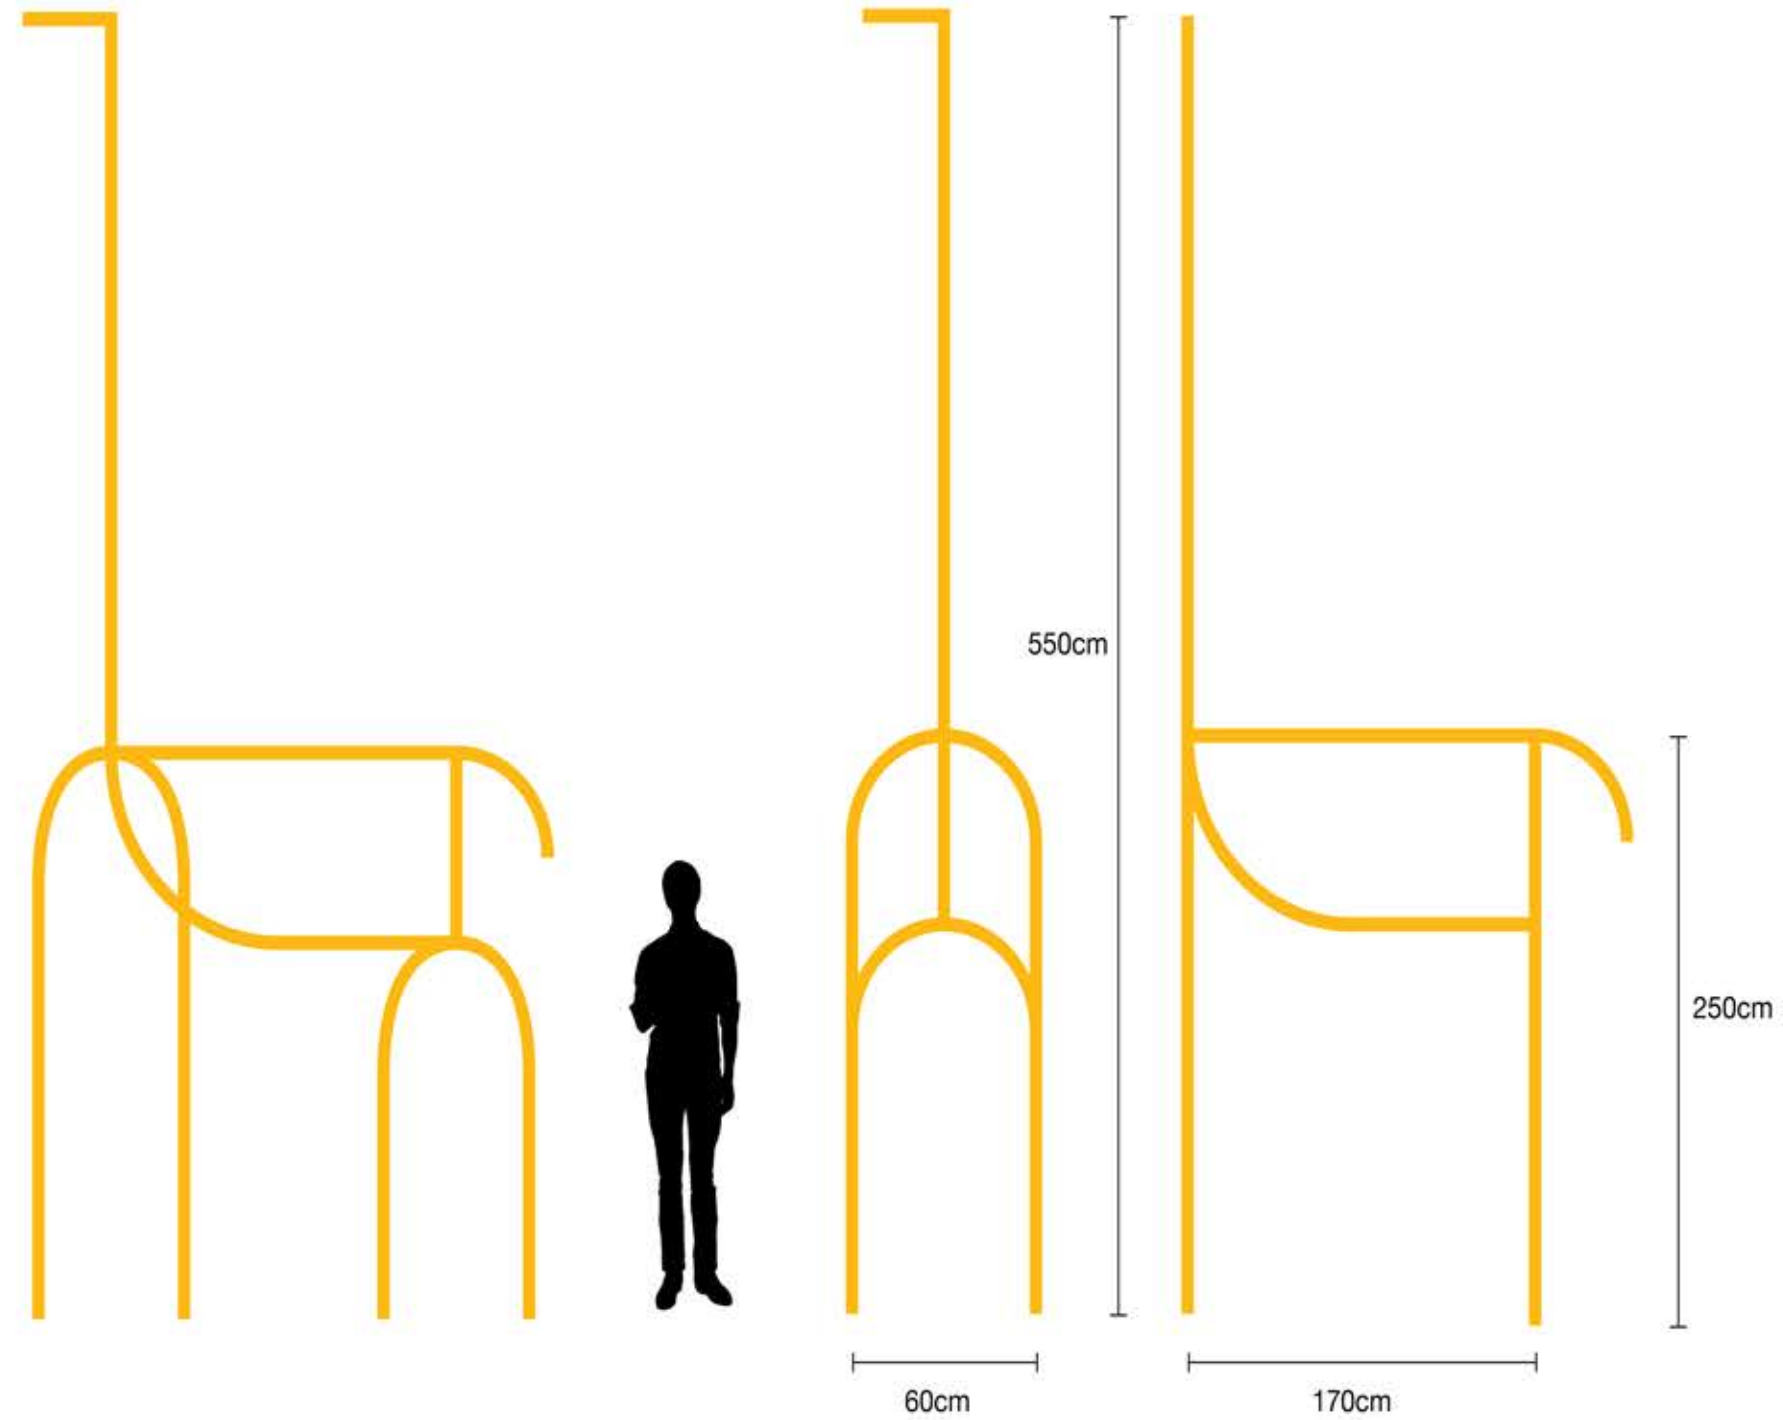

Giraffe
Elephant
Rhinoceros
Whale
Camel
Dinosaur

and many more!

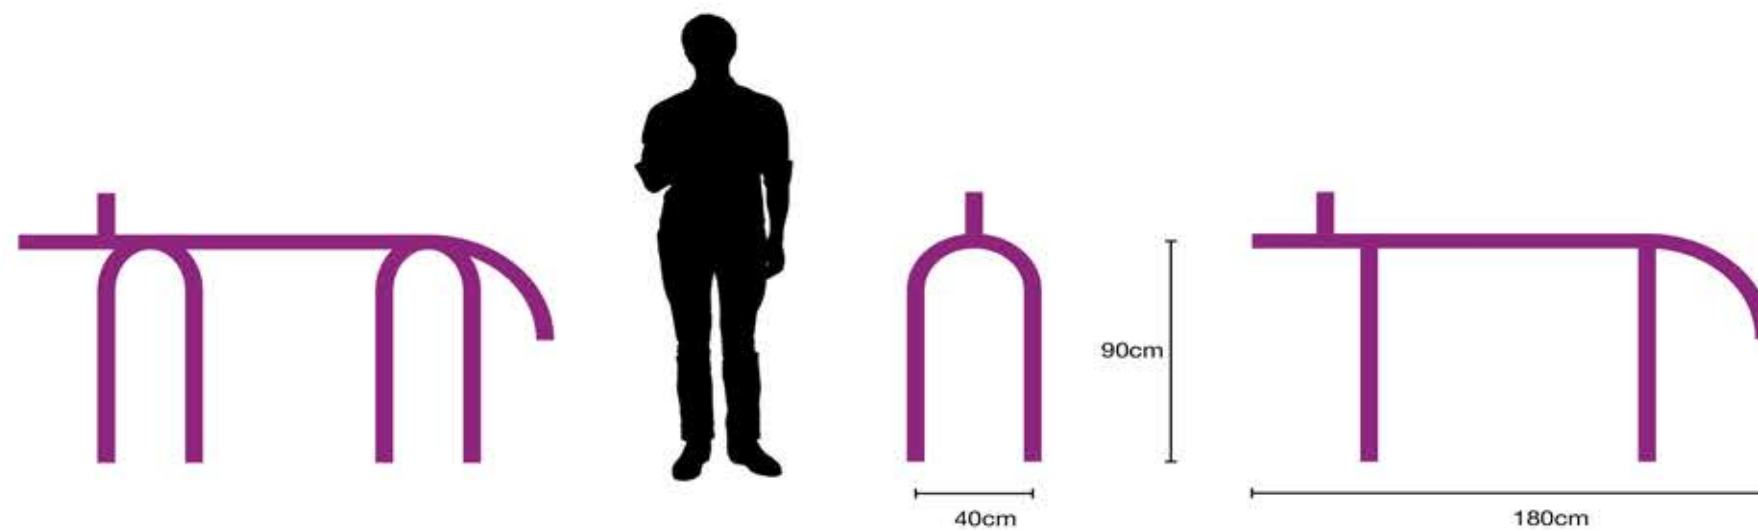

THE GIRAFFE

- tubular steel of 6cm, thickness 0.36cm
- 3 layers color coating

THE WOLF

- tubular steel of 4.8cm, thickness 0.32cm
- 3 layers color coating

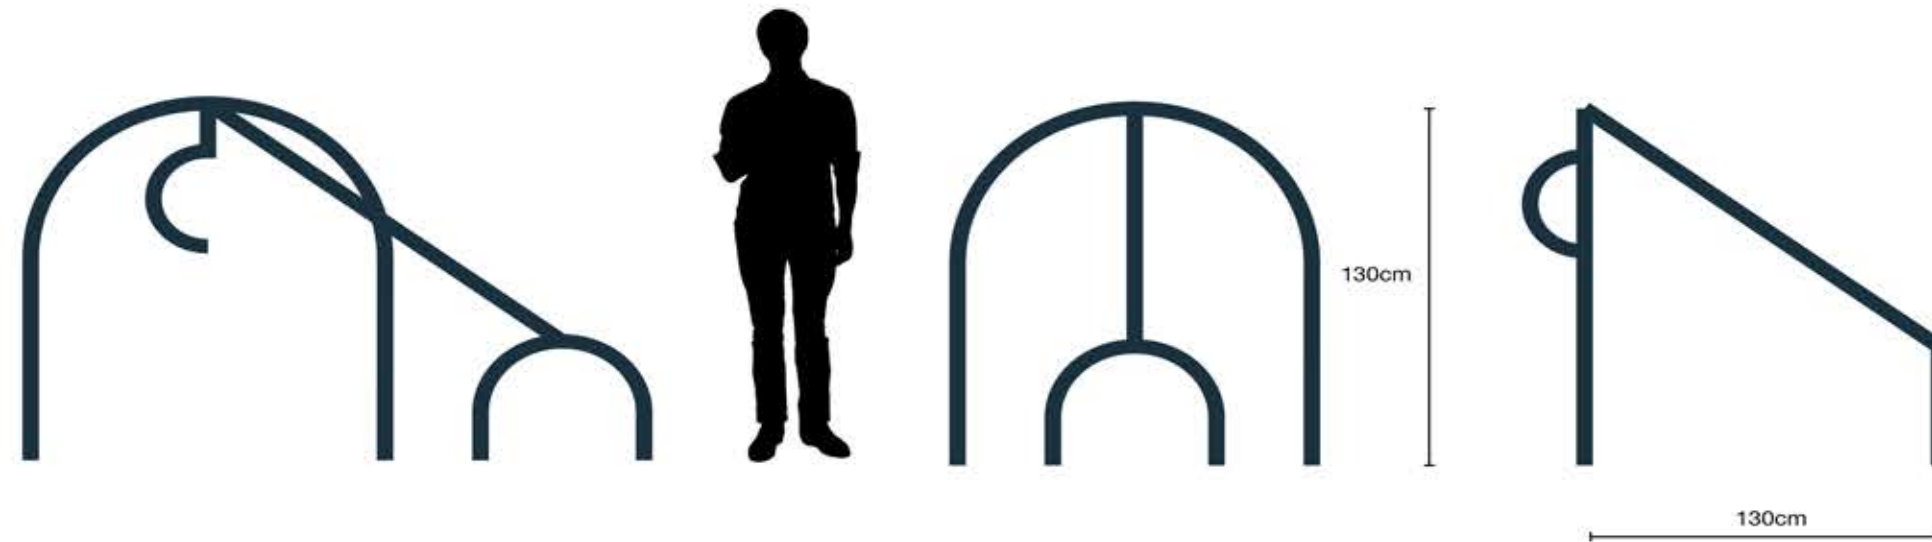

Wolf, 2021

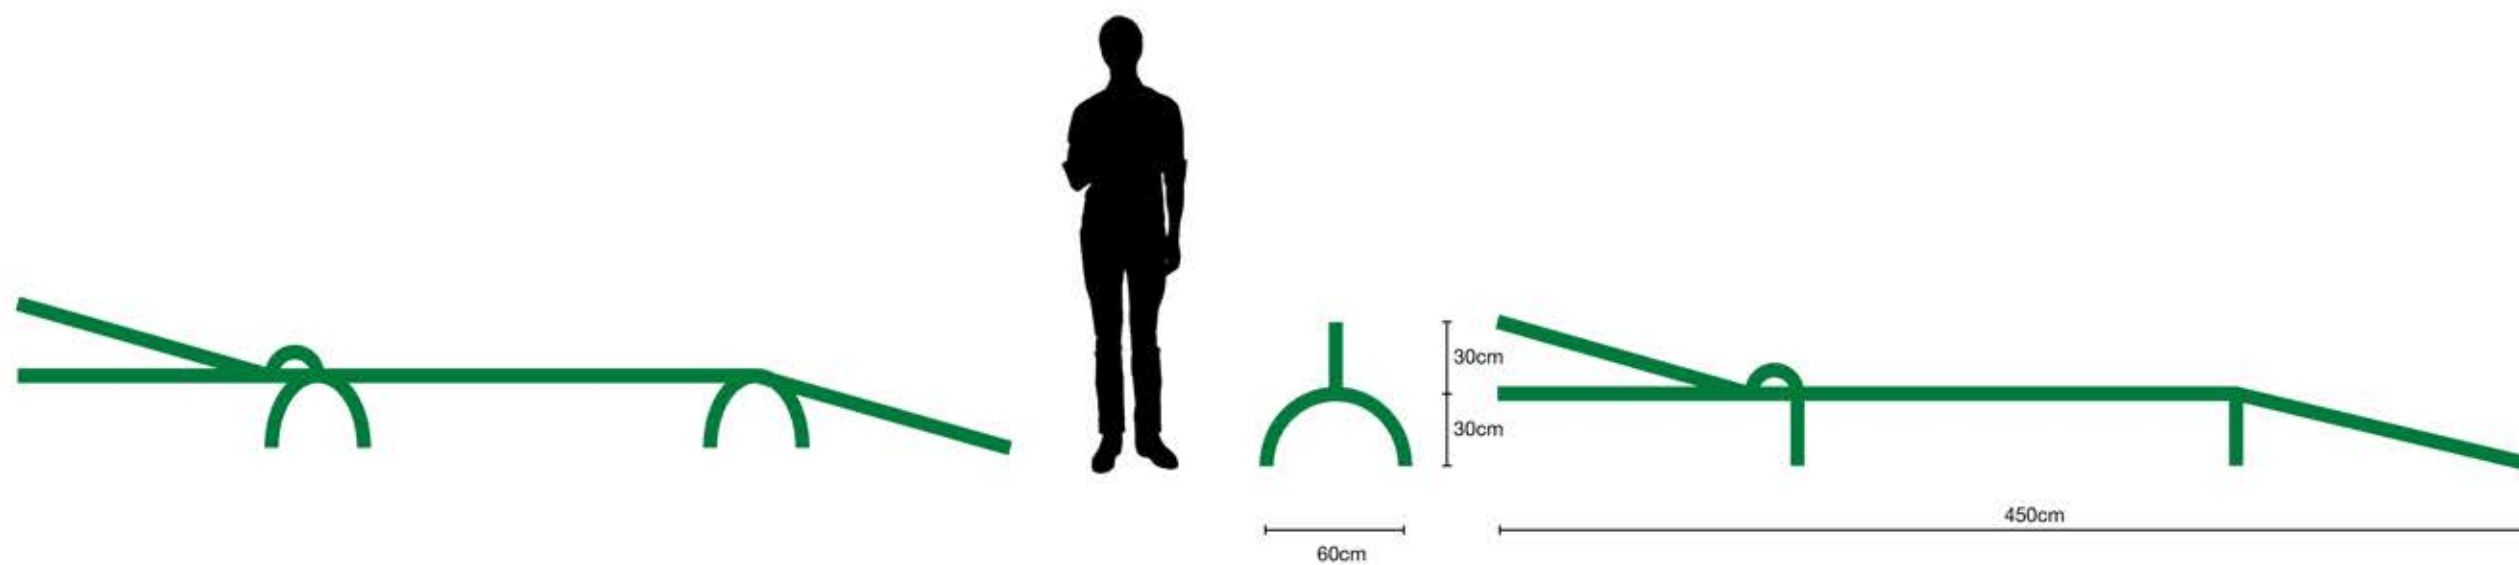

THE GORILLA

- tubular steel of 6cm, thickness 0.36cm
- 3 layers color coating

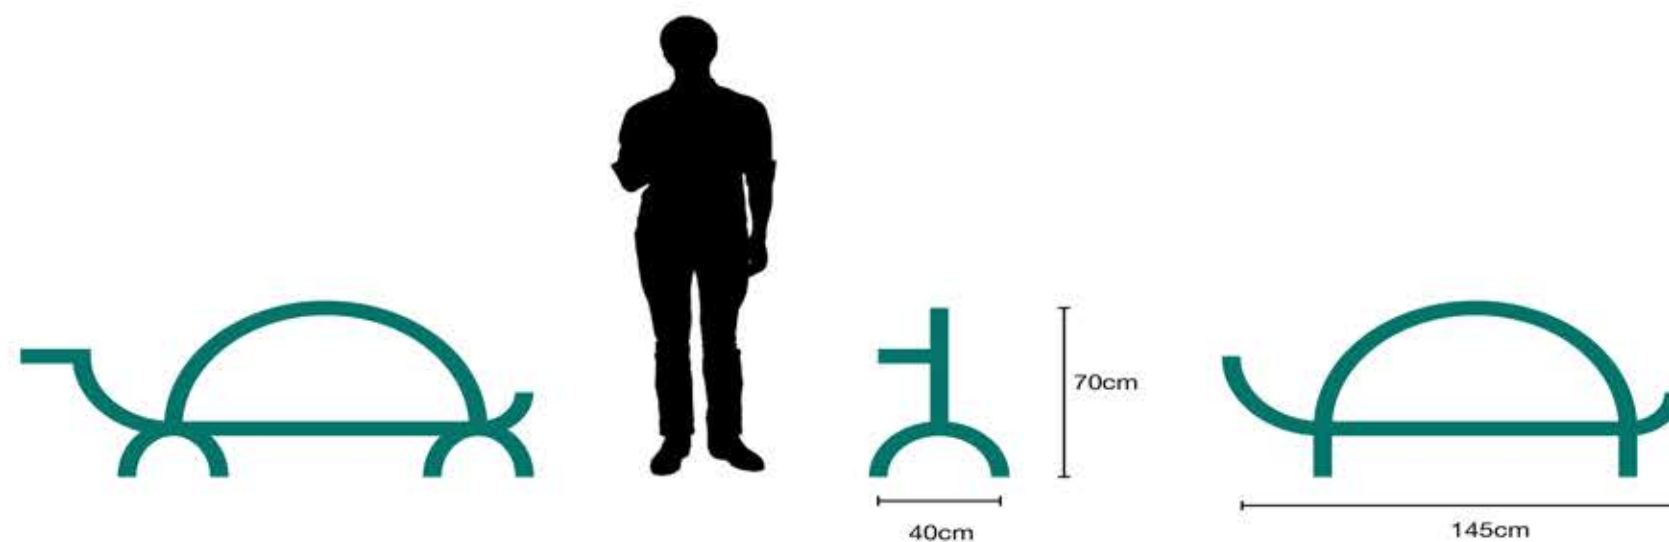

THE CROCODILE

- tubular steel of 6cm, thickness 0.36cm
- 3 layers color coating

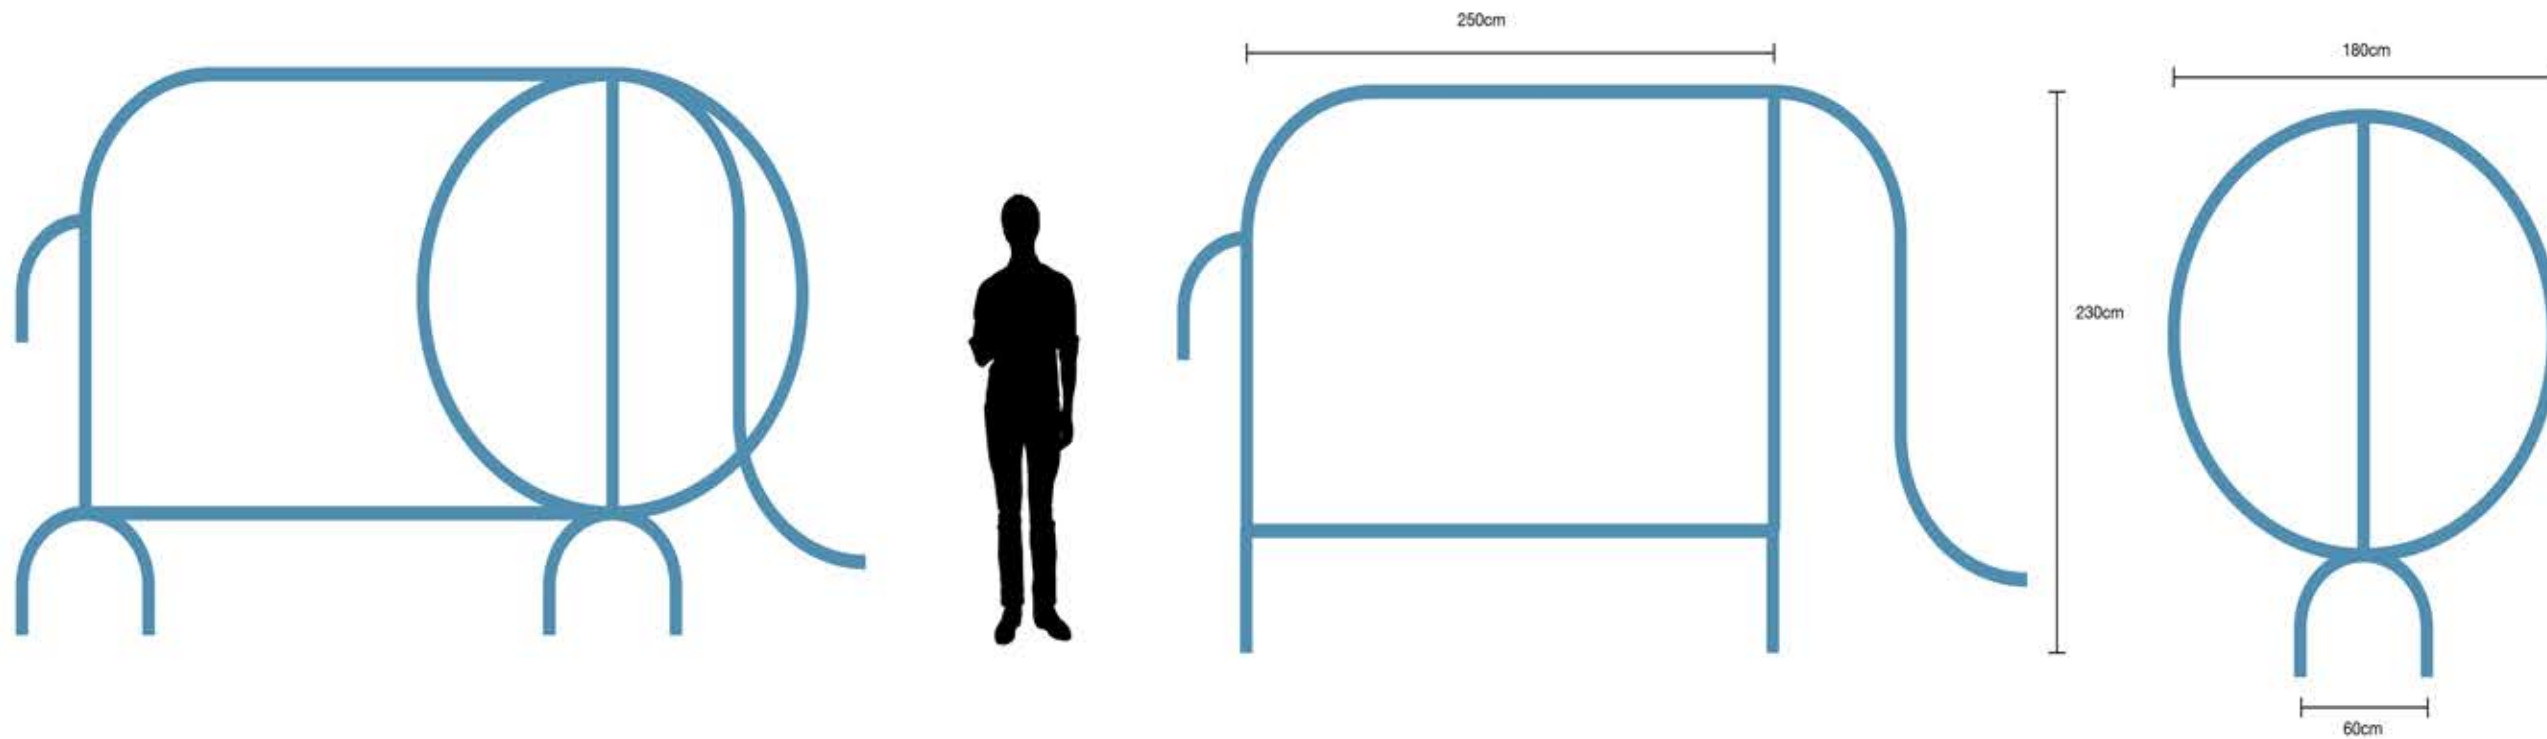

THE TURTLE

- tubular steel of 4.8cm, thickness 0.32cm
- 3 layers color coating

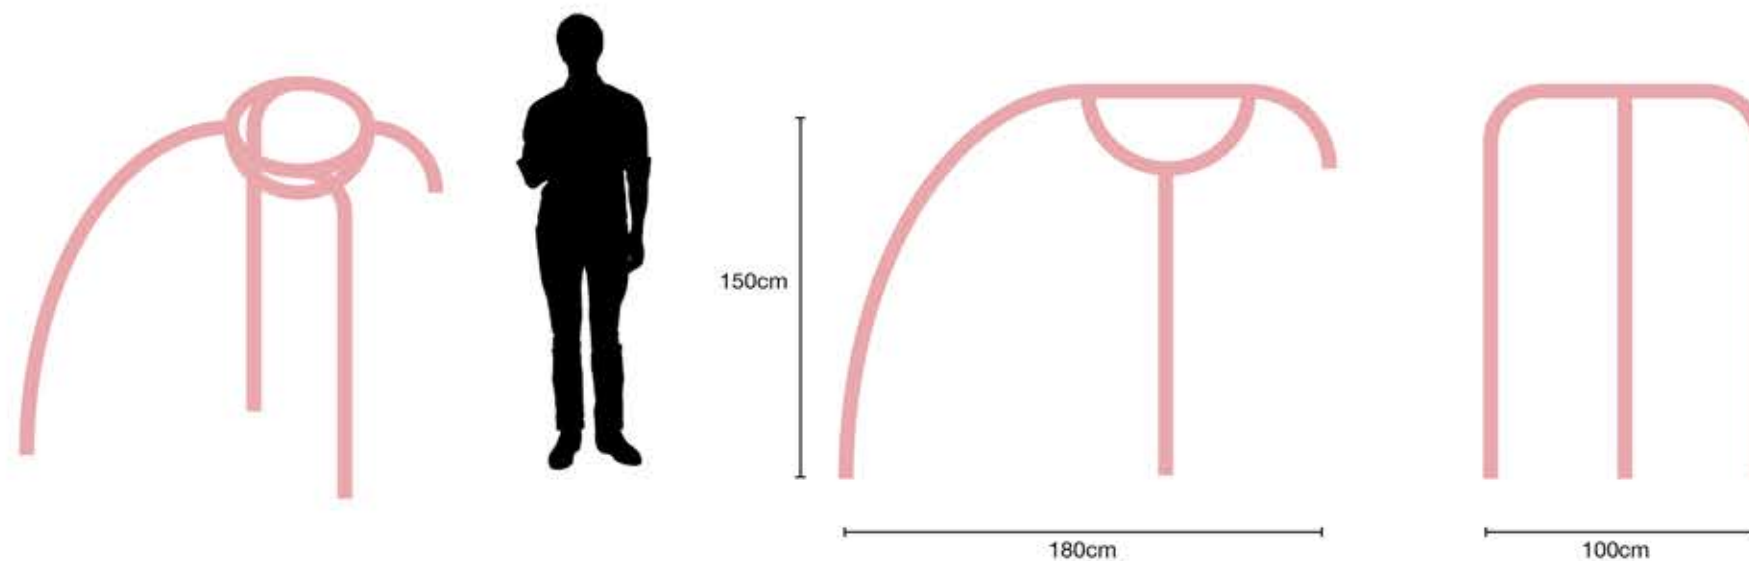

THE ELEPHANT (Indian elephant)

- tubular steel of 6cm, thickness 0.36cm
- 3 layers color coating

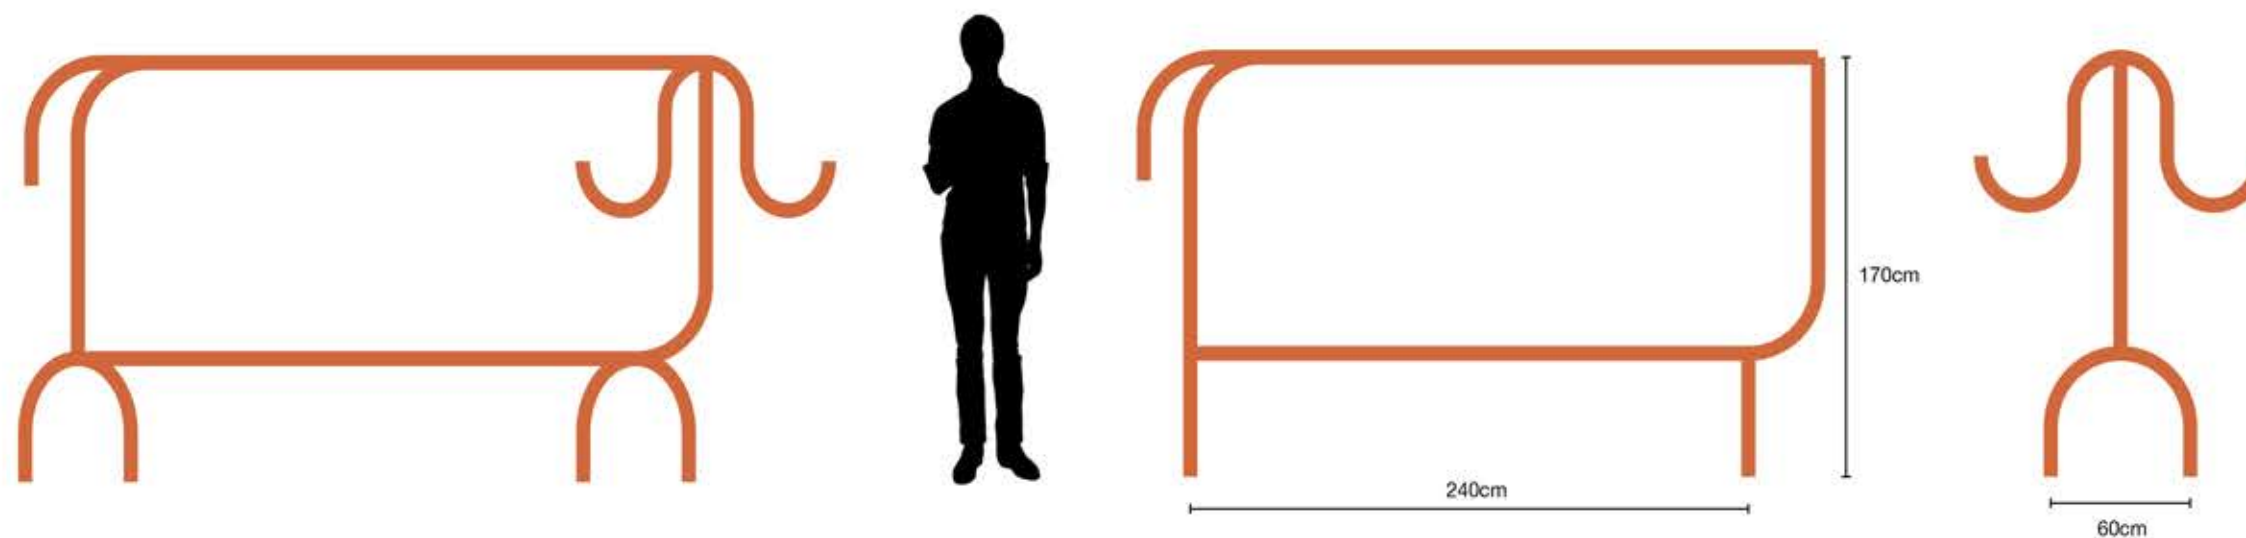

THE OSTRICH

- tubular steel of 4.8cm, thickness 0.32cm
- 3 layers color coating

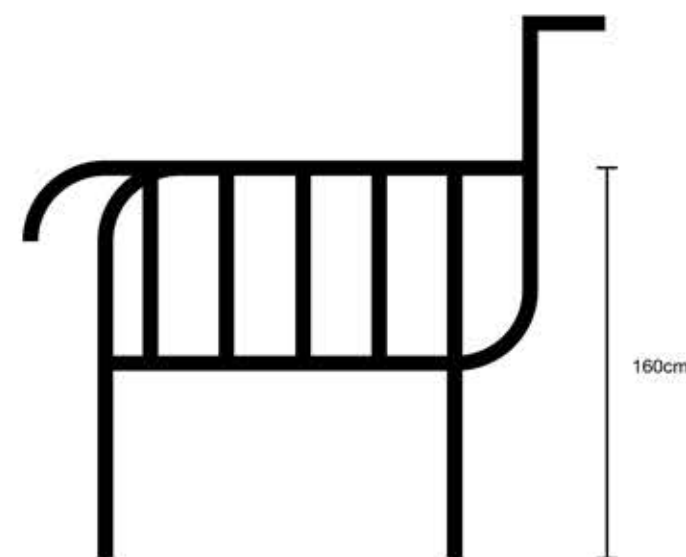

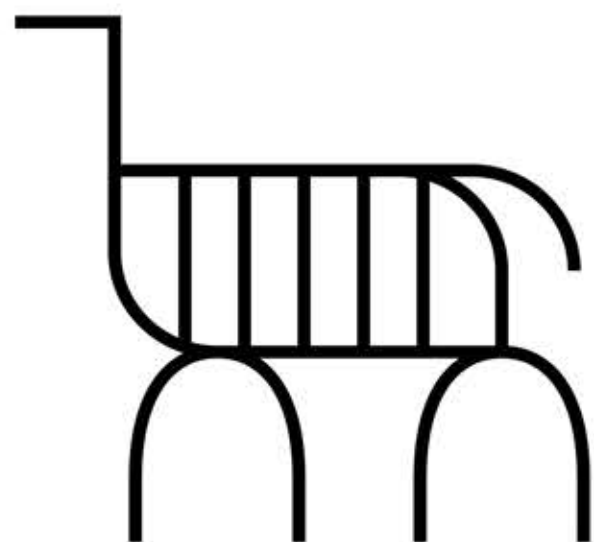

THE BUFFALO

- tubular steel of 6cm, thickness 0.36cm
- 3 layers color coating

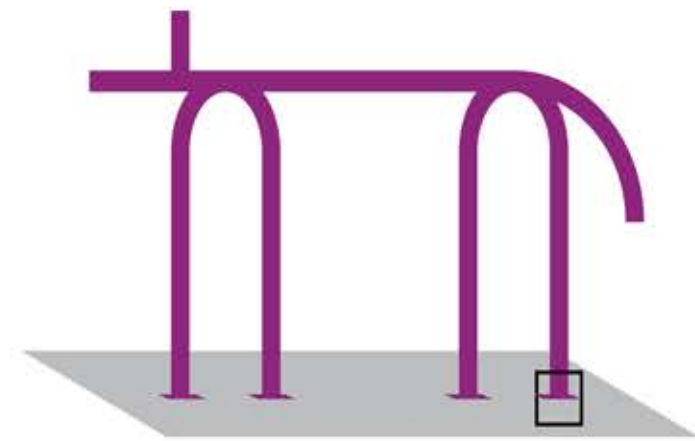

THE ZEBRA

- tubular steel of 6cm, thickness 0.36cm
- 3 layers color coating

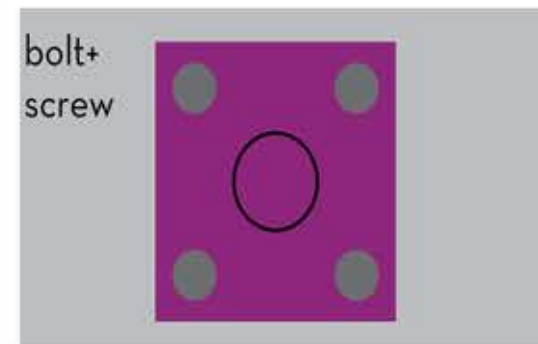

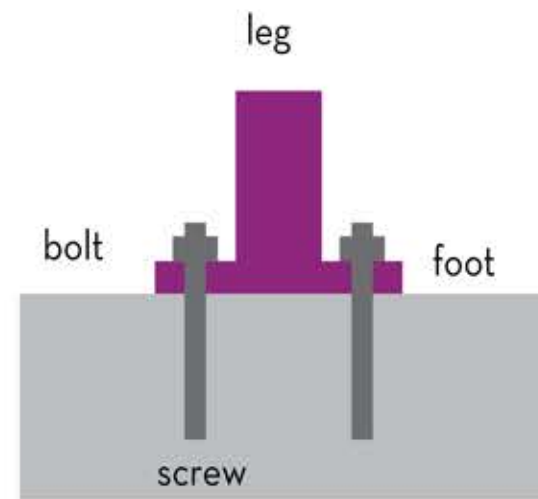

THE FEET

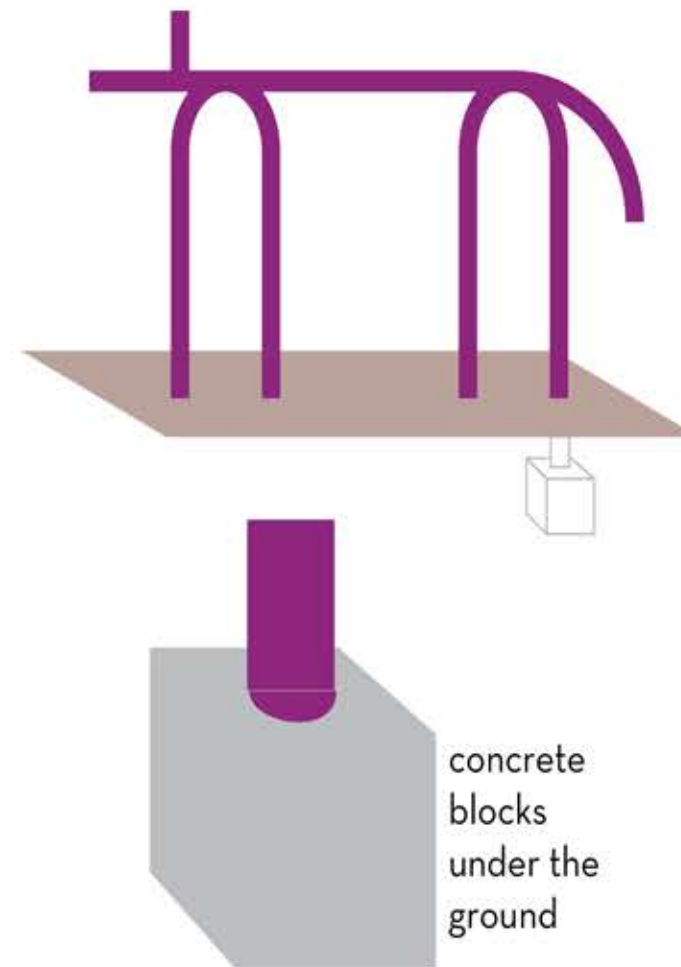

- all animals have flat feet with 1/2 holes for screws and bolts to secure them to the ground/concrete block
- the animals can also stand by them self, without anchoring

Animal Factory, 2021

Note:

All animals are produced on commission, not in series, in Amsterdam.
All animals are intended with 3 layers color coating and they are sold assembled.
Animals are CE certificated tested for stability and mechanics.
Installation, anchoring and transport of the animals has to be arranged by the client.

The notes below are intended for category; for example the note of the wolf is the same of the leopard, dog, etc; the note of the buffalo is the same of the camels, deer, etc.
They are grouped by their sizes, shapes and complexity.
More animals can be designed and realized by request.

Notes vary depending on the number of animals requested and the final purpose of them.
